

Conference Agenda

Promoting Excellence
in Stroke Care

Thursday, September 21, 2017

This program is designed to enhance multidisciplinary stroke-specific knowledge and care of stroke patients. Content is aimed at expanding the knowledge and performance of stroke caregivers from the baseline to the expert level as care is provided to both acute and sub-acute patients.

This educational offering is open to stroke caregivers from all disciplines and provides the opportunity to share best practices with one another and apply best stroke care in facilities of any size through the state.
