

Conference Agenda

Promoting Excellence
in Stroke Care

Thursday, September 17, 2015

This half-day program is designated for nurses to enhance stroke-specific knowledge and care of stroke patients. The focus of this program is beyond the “hyper-acute” phase of stroke, moving the focus to guideline driven in-patient management of guidelines often overlooked in stroke care: depression, hemodynamics, dementia, bedside swallow screens and performance improvement processes. The content of this offering is aimed at expanding nurses’ knowledge above the baseline into expert level knowledge and care of acute and sub-acute stroke patients.

This is a state-wide program, offering education to nurses from all hospitals throughout the state with the opportunity to share best practices with one another and apply best stroke care in hospitals of any size throughout the state.

11:45 am - 12:15 pm		Registration & Networking
12:15 pm - 12:30 pm	Vendor Exhibits Open	<p>Intro and Welcome Host: Pam Almandinger, RN Moderator: Beth Wiese, RN</p>
